FOREWORD

This volume provides a complete list of all taxable property in Hoboken and the amounts levied against each parcel. In these days of high taxes, however, tax payers are interested not alone in the amount of taxes they have to pay. They want to know also whether taxes are high elsewhere, why taxes are high, and whether there is a prospect of lower taxes in the future.

As an aid to those individuals who are interested in finding the answers to these questions, a statistical appendix has been added to this volume. The following tables are presented

TO-DAY

Is the best time to invest in our Guaranteed First Mortgages and Certificates because your interest at 5½ % begins as soon as we receive your remittance.

Many investors imagine that it is not worth the trouble to invest small amounts like $100.

But with our First Mortgage Participation Certificates—in any amounts from $100.00 up—the small investment yields the same return (5½ %) as the larger one.

ASSETS OVER $10,000,000.00

APPENDIX

The tables contained herein have been compiled by the Hoboken Chamber of Commerce from official sources, the approved city and school budgets, and newspaper reports.

TABLE 1

A summary of the valuations assessed against various types of property as well as the valuations and kinds of exempt property for 1924 and 1925.

TABLES 2 to 7

These tables trace the tax rates and the assessment on various types of property in Hoboken and elsewhere in Hudson County over a period of years. Table 7 shows the actual increase after making allowance for the increased cost of commodities since 1914.

TABLES 8 to 10

Table 8 explains in popular terms how the city's money is raised, by whom spent and for what purposes. Table 9 is a chart of appropriations for city purposes to give the taxpayer an idea of the actual cost of the various services. Table 10 is the 1925 City Budget as approved.

TABLES 11 and 12

These tables deal with school costs. In table 11 the amounts spent for **current expenses** during each school year, as reported to the County Superintendent of Schools, are given—also a chart showing the relative costs of the various school activities. Table 12 is a copy of the 1925 School Budget, as approved with the items titled and rearranged according to size.

TABLE 13

This table is a compilation of the appropriations for local purposes, the sources of revenue, and the apportionment of taxes for county and state purposes.

TABLES 14 and 15

These tables present in detail the debt condition of Hoboken under the administration of the Pierson Bond Act. Table 13 shows the controlling factors in determining the debts of the city in relation to statutory limits. By itemizing the gross indebtedness and the deductions which legally are made therefrom the process of establishing the net debt is outlined. The borrowing capacity of Hoboken, or the lack of it, is traced from 1916 to the present year. The margin between debt outstanding and the amount for which the city may incur debt is presented both in net amount and in the percent by which the city is below or in excess of the limit.
